OBJECTIVE

Software Development student with a solid background in system administration, troubleshooting, and application support. Experienced in diagnosing and trouble-shooting technical issues while collaborating effectively with cross-functional teams to deliver impactful IT solutions. Seeking to leverage my technical acumen and problem-solving abilities to contribute the development of innovative software solutions.

SKILLS & ABILITIES

Languages & Frameworks

JavaScript, TypeScript, Java, Python, C#,
React, Next.js, Node.js, Express.js, React Native, Flask

DevOps & Test Automation

Docker, GitHub, CI/CD with GitHub Actions, Selenium (Java), Jest

Database

Oracle, MySQL, Firebase, PL/SQL in Oracle

Problem solving skills

Demonstrated strong troubleshooting and problem-solving capabilities as a system administrator.

Continuous learning mindset

Started learning English in 2022 and staying updated on emerging technologies, showcasing resilience and dedication to self-improvement.

Adaptability & Collaboration

Successfully worked across multi-generational teams in diverse departments, developing teamwork skills.

EXPERIENCE

System and Application Administrator Avail Technologies Co., Ltd. (Japan)

Feb. 2009 – Feb. 2011

- Provided system troubleshooting and collaborated with programmers to resolve technical issues efficiently.
- Automated routine server tasks, improving data collection and overall system reliability.

Key Achievements: Enhanced system performance through task automation and minimized downtime through proactive issue resolution.

Freelance Developer / Web Designer Self-Employed (Japan)

Apr. 2007 – Jan. 2009

- Developed Flash content with ActionScript for mobile platforms.
- Designed and coded websites using HTML, CSS, JavaScript, and PHP.

Student Math Tutor CKC Network (Japan)

Apr. 2011 – Dec. 2011

- Taught Mathematics to junior high school students, simplifying complex concepts for better understanding.
